Applicants' Remarks

Terminal Disclaimer

Applicants file herewith a terminal disclaimer as requested in the Office Action.

Claim Amendments

Claim 1 is being amended to advance the prosecution on the merits by specifying that the electrically conductive composition is a hole transport or hole injection composition. No new matter is being added because this amendment is supported in the application at page 21, line 9. Claim 3 is also being amended to correct an obvious inconsistency of terms.

Claim Rejections – 35 USC 102 or, alternatively, 103

Claim 1 is the only independent claim. The dependent claims depend therefrom and further limit the independent claim and thereby further distinguish over the references. Applicants respectfully submit that the current amendment to claim 1 either overcomes or renders moot the alternative rejections. Accordingly, Applicants respectfully request that these rejections be withdrawn.

Conclusion

Applicants respectfully submit that the foregoing amendments in light of the remarks presented above and submission of a terminal disclaimer overcome the rejections in the August 2, 2006 office action and place the pending claims in condition for allowance. A notice of allowance is earnestly solicited.

Should the Examiner have questions about the content of this paper or the status of the application, the Examiner is invited to call Applicants' counsel at the telephone number listed below.

Respectfully submitted,

JOHN H. LAMMING
